

LISA DANIEL-RESUME

Painting & showing my work throughout the Northwest region and beyond for over 3 decades, I have work in businesses and private collections alike. I have been in board positions with various art projects, consulted and collaborated artistically with art events. I also served two 3-year terms as a Public Art Commissioner for the City of Fife. My paintings are large, organically abstract paintings of acrylic and gel. I pour, direct & manipulate in multiple layers of unusual combinations of materials to create texture, depth and transparency. My studio is open by appointment-I accept commissions, have a leasing program, and welcome all inquiries, comments, and questions.
